RESPONSE TO RESTRICTION REQUIREMENT

Sir:

This communication is in response to the Office Action mailed September 26, 2002, which set a one-month period for response that expires on October 26, 2002. The Examiner has required restriction under 35 U.S.C. § 121 to the invention of Group I or Group II. The Examiner is advised that the claims of Group II were canceled at the time the application was filed, rendering the restriction requirement moot. Only the claims of Group I are pending.

The Examiner has also required an election of species. The elected species is a compressed tablet comprising:

efavirenz,
microcrystalline cellulose (filler/disintegrant),
croscarmellose sodium (superdisintegrant),
hydroxypropyl cellulose (binder),
sodium lauryl sulfate (surfactant),
lactose hydrous spray dried (filler/compression aid),
magnesium stearate (lubricant), and
water (solvent).

It is believed that all of the pending claims read on the elected species.

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to: Assistant Commissioner for Patents, Washington, D.C. 20231, on the date appearing below.
